

Puppy socialisation and dog training

In association with Sally Hubbard (Dogs Understood)

Sally Hubbard MCFBA is a Qualified Canine Behaviourist and Pet Nutritionist.

We have worked alongside Sally for many years and we are delighted to be able to offer our puppy socialisation parties again, with Sally and Rosie Brice (Walk with Rosie) running sessions at our hospital on Goldington Road.

Click [here](#) for details about our FREE puppy parties and to see if your pup is eligible.

Dogs Understood is a Dog and Puppy training company based in Bedford, Bedfordshire, mainly specialising in one to one behavioural training consultations, but also offering bespoke Puppy Training. Dogs Understood covers all of the Bedfordshire area and training sessions are designed to be very flexible and can work around you.

Using and recommending only kind, reward based training methods, you will be advised and guided, together with your dog, through the problems, ensuring that the experience for you both will be a pleasurable one.

Dogs Understood is here to offer the help you need!

PUPPY TRAINING PACKAGE

Telephone Consultation prior to purchasing your puppy.

This can help with identifying the right breed for you and finding a reputable breeder or Rescue Centre.

Telephone Consultation before your puppy's arrival, advising on travel, crate training, toilet training, feeding and your puppy's first night in their new home.

Home Visit – This session will help you get on track with the training your puppy requires whilst restricted due to vaccinations, i.e. toilet training, crate training, feeding,

socialisation and basic commands, introducing reward based training. This session is aimed at your puppy between 8 – 12 weeks and you can choose how many home visits you have.

Outdoor Training Sessions – set in different environments and covering various aspects of training/socialisation, including parks, town, garden centres ,cafes and much more.

Each session will be approximately one hour in duration, although it's important to understand that a young puppy has a short attention span and therefore each session will be broken up with informative discussions, whilst the puppy has a rest. It is also important to understand that puppies should be

restricted with physical exercise and this is always taken into account when working with a puppy. Discussions will cover all sorts of topics, including insurance, neutering, grooming and everything else relevant to owning a dog.

Thereafter, any further sessions will be tailored to your puppy's needs at that time, but the package is intended to cover as much as possible to give you and your puppy a good foundation for a harmonious life together.

Full details of these sessions are available from sally@dogsonderstood.com and 07789 913834

Dog walking, grooming, feeding and training

In association with Rosie Brice MCFBA - a Qualified Canine Behaviourist/Trainer and Dog Groomer based in Bedfordshire.

Rosie set up Walk with Rosie in 2010 and specialises in training pack walks, bespoke grooming & puppy pamper packages, behavioural one to one consultations and dog training sessions.

Training Pack Walks are a great and fun way to introduce your dogs' to other canines and build up their confidence and socialisation skills whilst in a pack environment. They provide a safe opportunity to interact and play, polishing up on general obedience and good manners. It is a good chance to pick up hints and tips on training methods such as recall practice and lead walking in a safe manner and environment. Rosie will bring a suitable pack along taking into account age, ability and temperament to adapt the walks to suit everyone - from puppies to adult dogs looking to build their confidence.

Puppy Pamper Sessions provide an excellent opportunity to introduce your puppy to the sights, sounds and smells of the grooming environment, safely from a young age. The sessions are a fun and relaxed way to give them a chance to explore the grooming space whilst enjoying a little positive pamper session. This will be another new and positive experience to set them up for future sessions (particularly if they have a coat type requiring regular grooming). Puppies will receive a full body health check and a bath and blow dry. Skin, ears, teeth and nails will be checked with a trim if necessary - also a paw tidy. Advice on how to care for your dogs' coat type and the equipment which will suit them best can be provided.

Training and Behaviour Rosie offers reward based training to provide a positive and rewarding experience for both dog and handler. These take place both in the home and outdoors to suit you and your dogs' needs. From puppies to adult dogs – a well-trained and sociable dog is a happy dog, a happy and relaxed dog means a happy owner and a happy home!
