\*If your pet is under 6 months old, we will not be able to add the Direct Delivery option at this stage. This way, your practice can ensure the amount of flea and worm treatment your puppy/kitten receives is dispensed in line with their rapid growth at this time. If you wish to add Direct Delivery at a later date, just give Vetsure a call. Please speak to your practice if you have any questions.

The home delivery option is not applicable for rabbit plans. The fly strike prevention product will be dispensed when your rabbit attends the practice for vaccination or health check.

<sup>†</sup>The cost of the first part of your puppy or kitten's two-part primary vaccination course is not covered. The second part is covered.
