Scott Veterinary Clinic

A Fully Independent Practice

We're proud to be an independent, RCVS accredited Small Animal Veterinary Hospital owned by our Clinical Directors.

As an independent practice we pride ourselves on providing personalised patient care and maintaining strong community connections. We have complete autonomy to make clinical decisions based entirely on the patients needs rather than following rigid treatment plans.

At Scott Veterinary Clinic we are committed to providing professional and compassionate care for your pets. We are a modern practice with the latest clinical facilities, equipment and surgical technology. We offer appointments 6 days a week which include vet and nurse consults as well as physiotherapy and hydrotherapy sessions. We also provide both vet and nurse consults during the week at our branch practices at Sharnbrook and Wixams.

We are proud to have been serving the community and caring for their pets for over 70 years.

HOW DID WE DO?

Please scan the QR code and leave us a review. We really appreciate your feedback, and your review helps us to continually improve our customer experience. Thank you for trusting us with your pets.

Petplan Veterinary Awards

Has someone in our veterinary practice gone above and beyond the call of duty to help pets in need? If so, why not nominate them now to help them get recognition for all their hard work.

The Petplan Veterinary Awards recognise the fantastic work that goes on in veterinary practices across the UK.

Petplan has worked closely with the veterinary profession for over 40 years and hosts these independent industry awards to recognise the hard work and dedication of veterinary staff caring for our pets. If you think Scott Veterinary Clinic or someone in the practice team deserves to win, please complete the nomination form online:

It's Barbecue Season- how to keep your pets safe

Be aware of the hazards that a barbecue can pose to your pets. Always supervise your pets around the barbecue and never let them get hold of any scraps. When disposing of any leftover waste always ensure that you securely tie them in a bin bag and place that bin bag into a secure bin well out of reach from any animals.

THE HAZARDS:

- Fatty meats- can upset your pet's tummy and even cause pancreatitis.
- Cooked bones- (especially chicken or ribs) splinter easily and , if ingested, can cause internal injuries and obstructions.
- Corn on the cob- cannot be digested and often are the cause of life-threatening intestinal blockages.

WHAT TO DO:

If you think your pet has eaten something they shouldn't have, call our team on **01234 261622** for advice and guidance.

Join our Scotts For Life Pet Health Plan!!

We all know the value and benefit of keeping our pets happy and healthy – but we want to help reduce and spread the cost of routine preventative healthcare for your pet.
